INDEX TO PARTS A, B, C, D, E, AND F, VOL. LIV 549
ERRATA 573

PLATES.

PLATE.		PAGE.
I.	Comparative Size of Various Types of Cunard Mail Steamers from 1840 to 1905	5
II.	Automatic Tide Gauge Record	7
III.	Curves Showing Settlement of Experimental Test-Piles in Platforms	9
IV.	Experimental Platform for Testing Efficiency of Lagged Piles	11
V.	Ore Dock, Allouez Bay, Wisconsin	15
VI.	Coal Pier, New York Navy Yard; and Grain Elevator, New York Central Railroad, Weehawken, N. J.	19
VII.	Car Dumper for Delaware, Lackawanna and Western R. R. at Hoboken, N. J.	21
VIII.	Pier, North German Lloyd Steamship Company, Hoboken, N. J.; and Ferry Slip, Pennsylvania Railroad, New York City	25
IX.	Cross-Sections of Piers and Slip	27
X.	North Sea Canal	215
XI.	Ymuiden Lock	217
XII.	Lock at Ter Neuzen; and Suction Dredge at Sluiskil	221
XIII.	Lock at Ter Neuzen	225
XIV.	Lock at Sas of Ghent	233
XV.	Principal Waterways Completed and Projected in the United States and Canada	257
XVI.	Constructing Monoliths for Lock Walls; and Method of Keying	259
XVII.	Sloping Abutment, and Bear-Trap Dam	261
XVIII.	Horizontal-Framed, Straight-Backed Lock Gate	263
XIX.	Marshall's Automatic Upper Lock Gate	265
XX.	Bear-Trap Dam; and Lock No. 1, Allegheny River	267
XXI.	Herr Island Dam; and Maneuvering Boat Opening a Dam	275
XXII.	Bear-Trap Dam	277
XXIII.	Sections of Dams Recently Proposed or Built	279
XXIV.	Details of Pendulums and Springs, Ohio River Gates	281
XXV.	Ohio River Lock Gate; and the Thomas A-Frame Dam	283
XXVI.	Down-Stream View of Wickets on Weir; and General View of Lock and Dam	289
XXVII.	Pass Trestles from Above, Showing Escape-Bars and Walkway; and Pass Trestles, Escape Bars and One Needle	293
XXVIII.	Metropolitan Railway Lines of Paris, March, 1904	305
XXIX.	Municipal Metropolitan Railway of Paris	309
XXX.	London Underground Railways	327
XXXI.	Glasgow District Subway	329
XXXII.	Details of Tunnel Castings	343
XXXIII.	Details of Shaft Castings	345
XXXIV.	Price's Tunneling Machine	347
XXXV.	Sub-Division of Large Gas Mains, at Sixty-sixth Street and Broadway; and Reinforced Concrete Construction, Lenox Avenue, New York City	351
XXXVI.	New York Subway: Arrangement of Pipes, Twenty-third Street and Fourth Avenue	357
XXXVII.	New York Subway: Sections of Pipes, Twenty-third Street and Fourth Avenue	359
XXXVIII.	New York Subway: Brooklyn Bridge Station	361
XXXIX.	Comparative Sections, New York, Boston and Philadelphia Subways	363
XL.	New York Subway: Concrete-Steel Construction	365
XLI.	Floating Dry Docks for Vessels of 15 000 tons, Algiers, La	413

PLATE.		PAGE.
XLII.	The Battleship *Illinois* in Dock	415
XLIII.	Self-Docking Steel Floating Dry Dock for U. S. Naval Station, Cavite, Philippine Islands	417
XLIV.	Dry Dock No. 2, New York Navy Yard	427
XLV.	Old Pumping Engine at Dry Dock No. 1, New York Navy Yard. Installed in 1854	429
XLVI.	New Electrically-Driven, Centrifugal Pumping Plant at Dry Dock No. 1, New York Navy Yard	429
XLVII.	Test of New Pumping Plant, Dry Dock No. 1, New York Navy Yard	431
XLVIII.	Plan of Southampton Docks, London and South Western Railway	443
XLIX.	Barry Docks	449
L.	General Plan, London Terminus, Great Central Railway	455
LI.	Plan and Sections, London Terminus, Great Central Railway	459
LII.	Liverpool Street Station, Great Eastern Railway	461
LIII.	Signaling Diagram, Liverpool Street Station, Great Eastern Railway	465
LIV.	Plan, New Station at Victoria, London, Brighton and South Coast Railway	469
LV.	Cross-Sections of Roofing, Victoria Station, London, Brighton and South Coast Railway	471
LVI.	Waverley Station, 1898, North British Railway	473
LVII.	New Goods Depot at Manchester, Great Northern Railway: Plan at Low Level	475
